

BROADWAY STREET RECONSTRUCTION CONSTRUCTION UPDATE

Week of May 5th 2019

Construction Update

Utility Relocation

Nicor Gas relocation on Broadway from Park Street to Division is ongoing. Crews may need to close the side streets for short periods of time while completing the relocations. Please use alternate routes and use caution while traveling along Broadway.

The inclement weather has affected Nicor's progress, but they are making every effort to stay on schedule. The Contractor will begin underground storm sewer operations once Nicor is complete with their main line installation.
